

CRASH BROKERS'

FREE new service

Crash Brokers Ltd launched a free accident management service just last year and the concept has proved phenomenally successful with busy car-dependent professionals and SME's. Crash Brokers operate an Auckland-wide network of collision repairers and ensure the highest standards of both technical quality and customer service.

Crash Brokers' 0800 number provides a one-call solution, including free pick-up and courtesy car delivery to the door. The whole repair process including warranties is managed by Crash Brokers and ensures no inconvenience to the customer. Director, Karen Knight, explains that the sector is largely unregulated, ranges from the 5-star to the no-star, and service delivery varies widely. Crash Brokers has effectively transformed the collision repair industry, its interface with the public and how it is marketed. This is a unique premium service that will save you time, stress and money, and keep you mobile. For more info see www.crashbrokers.co.nz
